

ENGINE

- Engine Support and rubber mount condition/ - tightness
- Compression
- Charging system
- Exhaust system fasteners
- Spark plug replacement
- Rave valve cleaning

COOLING

- Hose condition and fasteners
- Inspect/clean engine drain tubes
- Water flow regulator valve inspection

FUEL SYSTEM

- Throttle, inspection/lubrication
- Fuel valve inspection
- Fuel filter and lines inspection
- Fuel filter replacement/cleaning
- Visual check for leaks
- Carburetors inspection or
- Fuel injection system sensors (visual inspection)
- Throttle body inspection (fault code reding)
- Fuel vents line pressure relief valve inspection
- Fuel lines, connections, check valve and fuel system leak test
- Visual inspection: Throttle body, sensors, fuel lines, fuel rail, and fittings
- Air intake silencer fit/tightness
- Fuel tank straps and fuel cap visual inspection

LUBRICATION SYSTEM

- Oil injection pump inspection
- Oil filter and lines inspection
- Oil reservoir and straps inspection

ELECTRICAL SYSTEM

- Battery, straps and wiring
- Check fault codes
- Electrical connection and fastening (ignition and starting system, fuel injectors, etc.)
- MPEM mounting brackets/fasteners
- Digitally encoded security system and safety lanyard/post condition
- Monitoring beeper
- Gauges

PROPULSION SYSTEM

- Driveline condition visual
- Impeller shaft seal inspection
- Impeller condition and impeller wearing clearance
- Water intake condition
- Ride plate inspection

HULL AND BODY

- Bailer pick-ups, check for obstructions

Control Cable

- Throttle
- Steering (incl. stem and nozzle)
- Reverse (incl. gate)
- O.P.A.S system check operation

GENERAL

- Lubrication and corrosion protection
- Reset maintenance code
